

FLEET MAINTENANCE

Efficiency in Motion

Elevate Your Fleet Performance with Proactive Maintenance Excellence.

OneView™ allows you to schedule maintenance based on usage or timing, receive alerts when upcoming maintenance is due, and track maintenance history to analyze trends and spot reoccurring problems.

Key Features

-  Preventative Maintenance
-  Alerts Via Email or Text
-  Multiple Report Options
-  Usage & Time Based Scheduling
-  Record Maintenance History
-  Upload Images Directly into Your Forms
-  Create Custom Maintenance Forms

Benefits

Increase Profits

Decrease the cost of service operations and improve profit margin with real-time insight into equipment usage and maintenance history.

Better Maintenance Records

Maintenance records and work history are centralized in a single cost-effective online system that remains tied to the equipment.

Save on Costly Breakdowns

OneView™ proactively alerts users of critical or changing conditions so you can detect small problems before they become expensive equipment failures.

Reduce Paperwork

Employees can easily document service costs and tasks performed, making it easier to analyze trends and spot reoccurring problems.

Preventative Maintenance

Move from corrective maintenance to preventative maintenance, which saves you time and money by preventing equipment downtime and avoidable repairs.

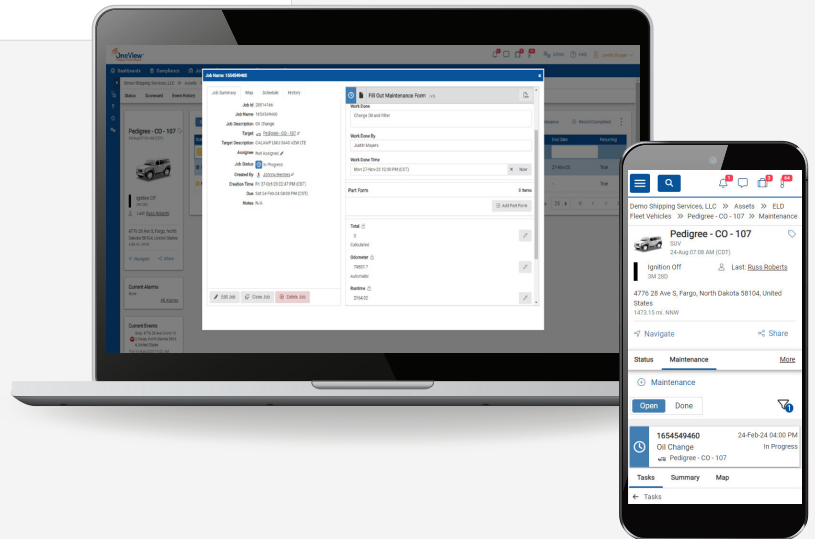

Extend Equipment Life

By ensuring proper maintenance schedules are followed, equipment will operate more efficiently and be less apt to fail.

How It Works

- ✓ Fleet Maintenance Manager works with other OneView™ applications to manage equipment and vehicle maintenance.
- ✓ Schedule maintenance based on engine runtime/hours, odometer readings, PTO, or calendar time depending on the type of service needed.
- ✓ Receive alerts when predefined conditions are met, such as upcoming or overdue maintenance.
- ✓ Manage records and reports for each piece of equipment and include part numbers and labor costs for each service activity.

CONNECT THE UNCONNECTED.

Giving you the power to access all equipment, vehicles, and assets in OneView™

- ✓ Truck, Trailer & Asset Management
- ✓ Safety & Compliance
- ✓ Enhanced Fleet Solutions
- ✓ API Integrations
